EQUITONE [materia]

EQUITONE [materia] is a through coloured facade material that accentuates the beauty of fibre cement. The material encompasses the characteristics of cement, whereas the fibres render its surface textured yet velvety. The ever-changing atmosphere, gives the material natural subtle shade variations. The material comes in a large panel size and can be transformed into any size or shape in the workshop or on site.

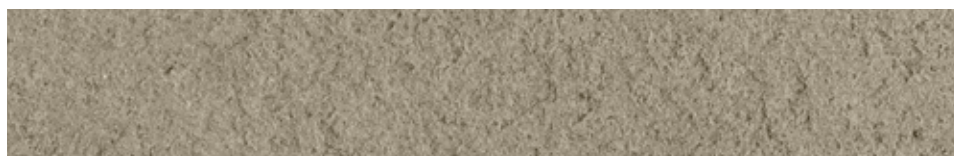

DIMENSIONS

8 mm	1250 mm	2500 - 3100 mm
